HPL PRODUCTS

COMPANY PROFILE

www.cpmsystems.in

Our Mission

CPM Systems is dedicated first and foremost to the production of the highest quality products to meet the needs and demands of our customers while achieving an acceptable return on investment. This will be realized both internally and externally by continuous communication between management, employees, suppliers, customers and community, and by ongoing improvement of processes, systems, equipment and use of human resources.

We intend to expand our presence in the marketplace by the development of new products in our (list of major product) lines as well as by exploration of other opportunities for growth when presented.

Our Vision

CPM Systems is committed to seeking growth and prosperity by achieving a sustainable competitive share of our industry in the Domestic marketplace. We will strive to reach our goals by meeting the needs and expectations of our customers with continuous improvements in quality, productivity, value, new product offerings and customer satisfaction.

It is our intent to develop quality partnerships with our employees, suppliers, customers and the community in which we operate. We wish to continually set standards of excellence, both personally and professionally, which exemplify our dedication to our goals and to the fulfillment of this vision statement.

Company Overview

For years India's leading brand of modular office furniture, CPM Systems has manufactured products which promises to perform beyond comparison. From developing technology to designs with superior functionality, CPM Systems has always received appreciation from the Industry and customers across nation.

Backed by ISO 9001 awards for offering advanced product line along with world class working systems.

With CPM Systems Cubix it offers you an exceptional restroom space range which gives a complete solution for adding a spectacular look to your restroom.

CUBIX
HPL PRODUCTS

CPM Cubix is an incredible assortment of restroom solutions, comprising of aesthetically designed restroom cubicles embellished with HPL Board panels which are extensively used for commercial applications and in public areas.

Engineered under indigenous technology, CPM Cubix performs exceptionally even in heavy traffic areas, under high moisture and high humid conditions. HARDWARE FIXING DETAILS

The adjustable foot that supports the pilasters is made from corrosion resistant nylon (Polyamide 6) and its base is anchored to the floor with nylon plug inserted into ground with stainless steel screws. There is a ground clearance of 150mm. Aluminum U-channels are used to attach the divider panel with stainless steel (Grade 304) screw inserts to the wall as well as the mid panel. Aluminum top rail (Grade 6063-T5 Alloy) is used to fix the pilasters at the top. Door stopper channel provides the non-rebating doors and connecting panels with extra ordinary look. Further the door are incorporated with the noise deafening tape to reduce the noise effect.

Hardware Detailing

Each restroom cubicle is equipped with the following set of hardware fittings:
